Preface	11	Employer to Employee Obligations	37
About the Author	13	Job Responsibilities	38
		National Institute for Automotive Service Excellence (ASE)	38
		National Automotive Technicians Education Foundation (NATEF)	39
		Job Application	40
		Customer Relations	40
		Review Questions	41
Section 1: Safety and Communication	15	Chapter 4: Tools and Equipment	43
Chapter 1: General Shop Safety	17	Introduction	43
Introduction	17	Common Hand Tools	43
Occupational Safety and Health Act and Environmental Protection Agency	17	Files, Taps, and Dies	47
Shop Hazards	17	Gear and Bearing Pullers	48
Shop Safety Rules	18	Bushing and Seal Pullers and Drivers	48
Smoking, Alcohol, and Drugs in the Shop	20	Power Tools and Shop Equipment	49
Air Quality	20	Electrical and Electronic Test Equipment	53
Shop Safety Equipment	20	Review Questions	58
Shop Layout	23		
Hazardous Waste Disposal	24	Chapter 5: Tool and Equipment Safety	60
Review Questions	26	Introduction	60
		Electrical Safety	60
Chapter 2: The Automotive Business	28	Gasoline Safety	60
Introduction	28	Fire Safety	61
Types of Automotive Repair Shops	28	Using a Fire Extinguisher	61
Successful Dealership Management	29	Vehicle Operation	62
Automatic Transmission Rebuilders Association (ATRA)	30	Housekeeping Safety	62
Mobile Air Conditioning Society Worldwide (MACS Worldwide)	31	Air Bag Safety	63
Automotive Service Association (ASA)	31	Lifting and Carrying	63
International Automotive Technicians Network (iATN)	32	Hand Tool Safety	64
Review Questions	32	Vehicle Lift (Hoist) Safety	64
		Hydraulic Jack and Safety Stand Safety	65
Chapter 3: Basic Shop Operation	34	Power Tool Safety	66
Introduction	34	Compressed-Air Equipment Safety	66
Service Writers	34	Cleaning Equipment Safety and Environmental Considerations	67
Cashiers	35	Handling Shop Wastes	68
Service Manager	35	Interpreting Material Safety Data Sheets (MSDS)	69
Shop Foreman	35	Review Questions	70
Repair Orders	35		
Technicians and Repair Orders	36		
Employee to Employer Obligations	36		

Section 2: Basic Shop Procedures, Measurements, and Fasteners 73**Chapter 6: Basic Shop Procedures 75**

- Introduction 75
- Using Shop Tools and Equipment 75
- Connecting and Using an Impact Wrench 75
- Using a Torque Wrench 78
- Using Gear, Bearing, and Seal Pullers 78
- Removing Broken Studs and Screws 79
- Removing Damaged Nuts 81
- Using an Acetylene Torch for Heating 81
- Checking and Changing Respirator Filters 83
- Jump Starting a Vehicle with a Discharged Battery 83
- Review Questions 84

Chapter 7: Measuring Systems, Measurements, and Fasteners 86

- Introduction 86
- Measuring Systems 86
- Precision Measurements 87
- Fasteners 91
- Review Questions 94

Section 3: Service Information 97**Chapter 8: Service Information 99**

- Introduction 99
- Types of Service Information 99
- Owner's Manual 99
- Manufacturer's Service Manual 100
- Troubleshooting and Diagnostic Tables 104
- Generic Service Manuals 105
- Electronic Service Information 105
- Computer Software 105
- Service Bulletins 106
- Labor Estimating Guides 106
- Vehicle Service Decals and Warning Labels 107
- Review Questions 107

Chapter 9: Using Service Information 109

- Introduction 109
- Vehicle Identification Number (VIN) Interpretation 109
- Locating Capacities and Fluid Requirements in a Service Manual 111
- Locating Vehicle Specifications and Maintenance Schedules in a Service Manual 113
- Using Generic Service Manuals 115
- Review Questions 116

Section 4: Engine Principles and Systems 119**Chapter 10: The Four-Stroke Cycle and Cylinder Arrangements 121**

- Introduction 121
- Engine Cycles 121
- The Intake Stroke 121
- The Compression Stroke 122
- The Power Stroke 123
- The Exhaust Stroke 123
- Diesel Engine Principles 123
- Cylinder Arrangements 125
- Valve Arrangements 126
- Vehicles with Alternate Power Sources 127
- Review Questions 130

Chapter 11: Engine Oil and Lubrication Systems 132

- Introduction 132
- Engine Oil Rating and Classification 133
- Oil Pumps 135
- Oil Filter 136
- Lubrication System Purpose and Operation 137
- Review Questions 138

Chapter 12: Engine Lubrication System Maintenance, Diagnosis, and Service 140

- Introduction 140
- Changing Engine Oil and Filter 140
- Oil Leak Diagnosis 141
- Diagnosing Oil Pressure Indicators 142
- Resetting Change Oil Warning Messages 143
- Diagnosis of Excessive Oil Consumption 144
- Oil Pressure Diagnosis 144
- Oil Pressure Testing 144
- Oil Pump Service 145
- Oil Jet Valves 145
- Review Questions 146

Chapter 13: Engine Coolant and Cooling Systems 148

- Introduction 148
- Engine Coolant 148
- Radiators and Coolant Recovery Systems 149
- Heater Core 151
- Hoses 151
- Water Pump 151
- Water Pump Drive Belts 152
- Thermostat 153
- Cooling Fans 154
- Electric-Drive Cooling Fans 155
- Cooling System Operation 155

Temperature Indicators	157	Elements, Compounds, and Molecules	194
Review Questions	158	Electric Current Flow	194
Chapter 14: Engine Cooling Systems Maintenance, Diagnosis, and Service	160	Electric Circuit Measurements	195
Introduction	160	Ohm's Law	196
Cooling System Maintenance	160	Voltage Drop	196
Coolant Contamination	162	Series Circuit	196
Cooling System Diagnosis	162	Parallel Circuit	196
Draining the Cooling System	162	Series-Parallel Circuit	197
Filling the Cooling System	162	Electromagnets	197
Cooling System Flushing	163	Electromagnetic Induction	198
Diagnosis of Improper Operating Temperature	164	Review Questions	198
Thermostat Testing	164	Chapter 18: Light Circuits	200
Pressure Cap Diagnosis and Cooling System Leak Diagnosis	165	Introduction	200
Cooling System Service	165	Lamps	200
Review Questions	168	Sealed Beam Headlights	201
Chapter 15: Intake and Exhaust Systems	170	Halogen Headlights	202
Introduction	170	High Intensity Discharge (HID) Headlights	203
The Air Induction System	170	Headlight and Dimmer Switches	203
Air Intake Ductwork	170	Headlight and Park Light Circuits	205
Air Cleaner/Filter	171	Concealed Headlight Systems	208
Intake Manifold	172	Tail Light, Stop Light, Signal Light, and Hazard Warning Light Circuits	208
Vacuum Basics	174	Interior Lights	211
Vacuum System	174	Daytime Running Lights	211
Exhaust System Components	174	Backup Lights	212
Catalytic Converters	175	Review Questions	212
Exhaust System Purpose and Operation	178	Chapter 19: Light Circuit Maintenance, Diagnosis, and Service	214
Review Questions	179	Introduction	214
Chapter 16: Intake and Exhaust System Maintenance, Diagnosis, and Service	181	Headlight Maintenance, Diagnosis, and Service	214
Introduction	181	Tail Light, Stop Light, and Park Light Circuit Maintenance, Diagnosis, and Service	219
Intake System Maintenance	181	Signal Light and Hazard Warning Light Circuit Maintenance, Diagnosis, and Service	220
Intake System Diagnosis	182	Testing Bulbs and Fuses	222
Intake System Service	184	Review Questions	222
Exhaust System Maintenance	185	Chapter 20: Indicator Lights and Gauges	224
Exhaust System Diagnosis	185	Introduction	224
Exhaust Restriction Diagnosis	185	Oil Pressure Indicator Lights	224
Converter Diagnosis	186	Engine Temperature Warning Lights	224
Exhaust System Service	186	Charge Indicator Lights	225
Review Questions	188	Brake Warning Light	226
Section 5: Electrical Systems	191	Types of Gauges	226
Chapter 17: Basic Electricity and Electric Circuits	193	Instrument Voltage Limiters	229
Introduction	193	Speedometers and Odometers	230
Atomic Structure	193	Tachometers	231
		Voltmeters and Ammeters	231
		Review Questions	232

Chapter 21: Indicator Light and Gauge Maintenance, Diagnosis, and Service 234

- Introduction 234
- Indicator Light Maintenance, Diagnosis, and Service 234
- Charge Indicator Light Maintenance, Diagnosis, and Service 236
- Brake Warning Light Maintenance, Diagnosis, and Service 237
- Gauges and Related Circuit Maintenance, Diagnosis, and Service 237
- Voltmeter and Ammeter Maintenance, Diagnosis, and Service 239
- Speedometer and Odometer Maintenance, Diagnosis, and Service 239
- Tachometer Maintenance, Diagnosis, and Service 240
- Review Questions 240

Section 6: Engine Electrical Systems 243**Chapter 22: Battery and Starting Systems** 245

- Introduction 245
- Battery Design 245
- Battery Operation 246
- Low-Maintenance Batteries 248
- Maintenance-Free Batteries 248
- Battery Ratings 248
- Starting Motor Electromagnetic Principles 249
- Starter Armature Design 250
- Starter Field Coil Design 250
- Solenoids 251
- Magnetic Switches 253
- Starter Drives 254
- Review Questions 255

Chapter 23: Battery and Starting System Maintenance, Diagnosis, and Service 257

- Introduction 257
- Battery Maintenance 257
- Battery Diagnosis and Service 258
- Starting Motor Maintenance 262
- Starting Motor Diagnosis 263
- Starting Motor and Solenoid Diagnosis and Testing 263
- Starting Motor Service and Inspection 264
- Review Questions 265

Chapter 24: Charging Systems 267

- Introduction 267
- Alternator Design 267

- Rotor 267
- Stator 268
- Diodes 269
- Alternator Operation 270
- Voltage Regulator Operation 272
- Review Questions 274

Chapter 25: Charging System Maintenance, Diagnosis, and Service 276

- Introduction 276
- Alternator and Voltage Regulator Maintenance 276
- Charging System Diagnosis 278
- Scan Tool Diagnosis of Charging Systems 279
- Charging Circuit Voltage Drop Testing 281
- Alternator Service and Inspection 281
- Review Questions 281

Chapter 26: Ignition Systems 283

- Introduction 283
- Spark Plugs 283
- Distributor Ignition (DI) Systems 285
- Distributor Advances 288
- Computer-Controlled Spark Advance 290
- Electronic Ignition (EI) Systems 290
- Coil-On-Plug and Coil-Near-Plug Ignition Systems 293
- Review Questions 294

Chapter 27: Ignition System Maintenance, Diagnosis, and Service 296

- Introduction 296
- Spark Plug Maintenance, Diagnosis, and Service 296
- DI System Maintenance, Diagnosis, and Service 298
- Checking and Adjusting Ignition Timing 302
- EI Maintenance, Diagnosis, and Service 303
- Coil-On-Plug and Coil-Near-Plug Ignition System Maintenance, Diagnosis, and Service 305
- Review Questions 305

Section 7: Engine Control Systems 307**Chapter 28: Engine Control Computers and Output Controls** 309

- Introduction 309
- Analog Voltage Signals 309
- Digital Voltage Signals 310

Binary Code 310
 Input Signal Conditioning 311
 Microprocessors 311
 Computer Memory Chips 311
 Computer Output Drivers 312
 Adaptive Strategy 312
 Fuel Pump Electric Circuit 313
 Fuel Pump Filter and Pressure Regulator 314
 Powertrain Control Module (PCM) Outputs 316
 Review Questions 316

Chapter 29: Input Sensors for Engine Control Systems 318

Introduction 318
 Oxygen Sensors 318
 Engine Coolant Temperature and Intake Air Temperature Sensors 320
 Manifold Absolute Pressure Sensors 321
 Mass Air Flow Sensors 322
 Throttle Position Sensors 323
 Knock Sensors 323
 Review Questions 324

Chapter 30: Input Sensor Maintenance, Diagnosis, and Service 326

Introduction 326
 Input Sensor Maintenance 326
 Oxygen Sensor Diagnosis 326
 Fuel Pump Pressure Testing 328
 Engine Coolant Temperature (ECT) Sensor and Intake Air Temperature (IAT) Sensor Diagnosis 328
 Manifold Absolute Pressure Sensor Diagnosis 329
 Throttle Position Sensor Diagnosis (TPS) 331
 Mass Air Flow Sensor Diagnosis 331
 Knock Sensor Diagnosis 333
 Input Sensor Service 333
 Review Questions 334

Chapter 31: Complete Engine Control Systems 335

Introduction 335
 Throttle Body Injection (TBI) Systems 335
 MultiPort Fuel Injection (MFI) System 337
 Sequential Fuel Injection (SFI) 337
 Central Port Injection (CPI) Systems 340
 On-Board Diagnostic I (OBD I) and On-Board Diagnostic II (OBD II) Systems 341
 Review Questions 345

Chapter 32: Engine Control System Maintenance, Diagnosis, and Service 347

Introduction 347
 Engine Control System Maintenance 347

Engine Control System Diagnosis 348
 Engine Control System Scan Tool Diagnosis and Diagnostic Trouble Codes 352
 Engine Control System Service 352
 Injector Replacement 353
 Review Questions 354

Section 8: Emissions and Emission Systems 357

Chapter 33: Vehicle Emissions and Emission Standards 359

Introduction 359
 Air Pollution and Vehicle Emissions 359
 Hydrocarbons (HC) 360
 Carbon Monoxide (CO) 360
 Oxides of Nitrogen (NO_x) 361
 Evaporative and Crankcase Emissions 361
 Emission Standards 361
 Emission Testing 362
 Types of Inspection/Maintenance (I/M) Programs 362
 Review Questions 364

Chapter 34: Emission Systems 366

Introduction 366
 Positive Crankcase Ventilation (PCV) System Design and Operation 366
 Exhaust Gas Recirculation (EGR) System Design and Operation 367
 Air Injection System Design and Operation 370
 Evaporative (EVAP) Emission System Design and Operation 372
 Catalytic Converter Design and Operation 373
 Review Questions 375

Chapter 35: Emission System Maintenance, Diagnosis, and Service 377

Introduction 377
 PCV System Maintenance 377
 PCV System Diagnosis 377
 PCV System Service 377
 EGR System Maintenance 378
 EGR System Diagnosis 378
 EGR System Service 379
 Air Injection System Maintenance 379
 Air Injection System Diagnosis 379
 Air Injection System Service 380
 Evaporative (EVAP) System Maintenance 380
 EVAP System Diagnosis 380
 EVAP System Service 381
 Catalytic Converter Maintenance 382
 Catalytic Converter Diagnosis 382

Catalytic Converter Service 383
 Review Questions 383

Section 9: Heating and Air Conditioning Systems 385

Chapter 36: Heating and Air Conditioning Systems 387

Introduction 387
 Heating System Design 387
 Heat Absorption Principles 388
 Air Conditioning Refrigerants 389
 R-12 and the Ozone Layer 389
 R-134a Refrigerant 389
 Alternate Refrigerants 389
 Refrigerant Oils 390
 Refrigerant Recovery and Recycling Standards 390
 Refrigeration System Operation and Controls 390
 Manual A/C Systems 396
 Semi-Automatic A/C Systems 397
 Automatic A/C Systems 397
 Review Questions 398

Chapter 37: Heating and Air Conditioning Maintenance, Diagnosis, and Service 400

Introduction 400
 Heating System Maintenance, Diagnosis, and Service 400
 Air Conditioning (A/C) System Maintenance 400
 Air Conditioning (A/C) System Diagnosis 402
 Air Conditioning (A/C) System Service 406
 Retrofitting R-12 Systems to R-134a Systems 410
 Review Questions 412

Section 10: Tires and Wheels 415

Chapter 38: Tires, Wheels, and Hubs 417

Introduction 417
 Tire Design 417
 Tire Ply and Belt Design 419
 Tire Ratings 419
 All-Season and Specialty Tires 421
 Replacement Tires 422
 Run-Flat Tires 422
 Tire Valves 422
 Compact Spare Tires 423
 Tire Contact Area 424
 Tire Placard and Inflation Pressure 424

Tire Pressure Monitoring Systems 425
 Tire Motion Forces 426
 Wheel Rims 426
 Static Wheel Balance Theory 427
 Dynamic Wheel Balance Theory 428
 Wheel Bearings 429
 Wheel Bearing Seals 431
 Wheel Bearing Hub Assemblies 432
 Rear Axle Bearings 433
 Bearing Lubrication 434
 Review Questions 435

Chapter 39: Tire, Wheel, and Hub Maintenance, Diagnosis, and Service 437

Introduction 437
 Tire Maintenance 437
 Tire Diagnosis 438
 Wheel and Tire Service 439
 Wheel Rim Service 443
 Tire and Wheel Balancing 445
 Wheel Bearing Maintenance 447
 Wheel Bearing Diagnosis 452
 Wheel Hub Unit Diagnosis 453
 Rear Axle Bearing and Seal Service, Rear-Wheel Drive Vehicles 453
 Review Questions 456

Section 11: Drive Shafts, Drive Axles, and Clutches 457

Chapter 40: Drive Shaft, Drive Axle, and Universal Joint Maintenance, Diagnosis, and Service 459

Introduction 459
 Drive Shaft Design 459
 Drive Shaft Purpose 460
 Types of Drive Shafts 461
 Universal Joints 463
 Drive Axle Design 465
 Drive Axle Purpose 467
 Types of CV Joints 468
 Drive Shaft and Universal Joint Maintenance 469
 Drive Shaft and Universal Joint Diagnosis 471
 Drive Shaft and Universal Joint Service 472
 Drive Axle and CV Joint Maintenance 474
 Drive Axle and CV Joint Diagnosis 476
 Drive Axle and CV Joint Service 477
 Review Questions 480

Chapter 41: Clutch Maintenance, Diagnosis, and Service 482

- Introduction 482
- Clutch Disc Design 482
- Flywheel Design 483
- Pressure Plate Assembly Design 484
- Clutch Release Bearing and Lever 486
- Clutch Linkages 487
- Clutch Operation 488
- Clutch Maintenance 489
- Clutch Diagnosis 490
- Clutch Service 492
- Review Questions 492

Section 12: Manual and Automatic Transmissions and Transaxles 495

Chapter 42: Manual Transmission and Transaxle, Maintenance, Diagnosis, and Service 497

- Introduction 497
- Gears 497
- Gear Ratios 497
- Synchronizers 498
- Transmission Types 500
- Transmission Operation 500
- Transaxle Design and Operation 503
- Manual Transmission and Transaxle Lubrication 504
- Manual Transmission and Transaxle Maintenance 505
- Manual Transmission and Transaxle Diagnosis 506
- Manual Transmission and Transaxle Service 508
- Review Questions 509

Chapter 43: Automatic Transmission and Transaxle Maintenance, Diagnosis, and Service 511

- Introduction 511
- Torque Converter Purpose and Design 511
- Torque Converter Operation 512
- Planetary Gearset Design and Operation 514
- Multiple-Disc Clutches 516
- Bands and One-Way Clutches 517
- Oil Pump and Pressure Regulator Valve 518
- Governors 520
- Throttle Linkages and Throttle Valves 520
- Valve Body and Shift Valves 520

- Accumulators, Modulators, Thrust Washers, Bushings, and Seals 523
- Electronic Transmission and Transaxle Controls 525
- Final Drives and Differentials 526
- Four-Wheel Drive (4WD) 528
- All-Wheel Drive 528
- Torque Converter Maintenance and Diagnosis 528
- Torque Converter Service 531
- Automatic Transmission and Transaxle Maintenance 532
- Automatic Transmission and Transaxle Diagnosis 533
- Automatic Transmission and Transaxle Service 535
- Review Questions 538

Section 13: Conventional and Antilock Brake Systems 541

Chapter 44: Brake System Design and Operation 543

- Introduction 543
- Hydraulic Principles 543
- Brake Fluids 543
- Master Cylinders 544
- Drum Brakes 546
- Disc Brakes 548
- Brake Lines, Hoses, and Valves 550
- Vacuum Brake Boosters 552
- Hydro-Boost Brake System 552
- Parking Brakes 553
- Antilock Brake System Principles 554
- Four-Wheel ABS with High-Pressure Accumulator 554
- ABS with Low-Pressure Accumulators 557
- Review Questions 558

Chapter 45: Brake System Maintenance, Diagnosis, and Service 560

- Introduction 560
- Brake System Maintenance 560
- Brake System Diagnosis 561
- Brake Service 561
- Antilock Brake System Maintenance 568
- ABS Diagnosis, OBD I Vehicles 569
- ABS Diagnosis, OBD II Vehicles 570
- Wheel Speed Sensor Diagnosis 571
- ABS Service 571
- Review Questions 572

Section 14: Suspension Systems 575

Chapter 46: Suspension Systems 577

- Introduction 577
- Shock Absorbers and Struts 577
- Ball Joints 582
- Short, Long-Arm (SLA) Front Suspension Systems 583
- MacPherson Strut-Type Front Suspension System Design 585
- Torsion Bar Suspension 587
- Live-Axle Rear Suspension Systems 587
- Semi-Independent Rear Suspension Systems 589
- Independent Rear Suspension Systems 590
- Curb Riding Height 591
- Spring Sag, Curb Riding Height, and Caster Angle 591
- Electronic Air Suspension System 591
- Continuously Variable Road Sensing Suspension (CVRSS) System 595
- Review Questions 597

Chapter 47: Suspension System Maintenance, Diagnosis, and Service 599

- Introduction 599
- Shock Absorber Maintenance 599
- Shock Absorber Diagnosis 600
- Shock Absorber Service 600
- Front and Rear Suspension System Maintenance 604
- Curb Riding Height Measurement 605
- Front and Rear Suspension Diagnosis and Service 605
- Electronic Air Suspension System Maintenance 608
- Electronic Air Suspension Diagnosis 608
- Electronic Air Suspension System Service 609
- Continuously Variable Road Sensing Suspension System (CVRSS) Maintenance 610
- Continuously Variable Road Sensing Suspension System (CVRSS) Diagnosis and Service 611
- Review Questions 614

Section 15: Steering Systems 617

Chapter 48: Supplemental Restraint Systems 619

- Introduction 619
- Passive Seat Belt Restraints 619

- Air Bag System Components 619
- Air Bag System Operation 622
- Multi-Stage Air Bag Deployment 623
- Side Impact Air Bags 624
- Smart Air Bag Systems 624
- Seat Belt Pretensioners 624
- Supplemental Restraint System Maintenance 625
- Supplemental Restraint System Diagnosis 625
- Air Bag System Service 626
- Review Questions 627

Chapter 49: Steering Columns, Linkages, and Power Steering Pumps, Maintenance, Diagnosis and Service 629

- Introduction 629
- Steering Column Design 629
- Parallelogram Steering Linkages 632
- Rack and Pinion Steering Linkages 634
- Steering Damper 635
- Power Steering Pump Design 636
- Steering Column Maintenance and Diagnosis 637
- Steering Linkage Maintenance and Diagnosis 639
- Steering Linkage Service 640
- Power Steering Pump Maintenance and Diagnosis 642
- Power Steering Pump Service 645
- Review Questions 646

Chapter 50: Manual and Power Steering Gears Maintenance, Diagnosis, and Service 648

- Introduction 648
- Manual Recirculating Ball Steering Gears 648
- Manual Rack-and-Pinion Steering Gears 650
- Power Recirculating Ball Steering Gears 651
- Power Rack-and-Pinion Steering Gears 653
- Electronic Power Steering Systems 656
- Manual Steering Gear Maintenance and Diagnosis 656
- Manual Steering Gear Service 659
- Power Steering Gear Maintenance and Diagnosis 662
- Power Steering Gear Service 666
- Review Questions 670

Index 673
